

AJAY KUMAR J

AI & AUTOMATION ENGINEER
SAP INTEGRATION | GENAI | ENTERPRISE AUTOMATION

ABOUT ME

AI & Automation Engineer with **2 years of experience** in building enterprise AI solutions, workflow automation platforms, and SAP-integrated applications. Skilled in Python, FastAPI, Flask, React.js, LangChain, LangGraph, Power Apps, and Power Automate. Experienced in integrating SAP S/4HANA, SAP Business ByDesign, and ServiceNow using REST APIs, SOAP, and OData services.

Worked on AI assistants, document-centric AI systems, enterprise approval workflows, semantic search platforms, and automation solutions that improve operational efficiency and reduce manual effort. Strong interest in Generative AI, enterprise automation, workflow orchestration, and scalable backend architecture.

CORE EXPERTISE

- AI & Automation
- Generative AI
- LangChain
- LangGraph
- AI Agents
- Workflow Automation
- Semantic Search
- RAG Systems
- Backend Development
- Python
- FastAPI
- Flask
- REST APIs
- Frontend
- React.js
- Tailwind CSS
- Enterprise Platforms
- SAP S/4HANA
- SAP Business ByDesign
- Power Apps
- Power Automate
- ServiceNow
- Database
- MySQL
- PostgreSQL

LANGUAGE

- English
- Tamil

EDUCATION

Bachelor of engineering

2020 – 2024

Holy Cross Engineering College
Thoothukudi

CERTIFICATIONS

AI – From Science to Practical Mastery – NoblIQ (Feb 2026)

Credential : https://drive.google.com/file/d/1r2EwPx_tGz_9dkMely9eMNIT0Y0bulgt/view?usp=sharing

Mastering Microsoft Power Automate 2025 – Udemy (Jun 2025)

Credential : <https://www.guvi.in/share-certificate/N907n2699U6I1Y26C5>

AI For India 2.0 | GUVI & Skill India (Aug 2023)

Credential : <https://www.guvi.in/share-certificate/N907n2699U6I1Y26C5>

Python Programming Course – GUVI & HCL (Aug 2023)

Credential : <https://www.guvi.in/share-certificate/6i989149IKI394HN6B>

WORK EXPERIENCE

Nobl Q Pvt Ltd, India

2024 – Present

AI and Automation Engineer | SAP Integrations

Customer Master Data Control Tool (SAP ByDesign)

A centralized customer data governance solution built using Power Apps, Power Automate, SharePoint, SAP Integration, and Microsoft Teams, enabling customer onboarding, validation, approval workflows, document management, and audit tracking with complete visibility and compliance.

AI Assistant

Document-centric AI platform using Python, FastAPI, and FAISS for semantic indexing, summarization, and Q&A. Integrated real-time audio interactions and AI webinar support.

Sales Order Automation (SAP S/4HANA)

Automated Sales Order creation in SAP S/4HANA using Power Automate, GenAI, and ML. Triggers on emails, extracts details, and posts to SAP.

ServiceNow Assistant

Assistant portal using LangGraph and ServiceNow REST APIs to guide users in creating catalog items with React-based input cards.

Vendor Portal for SAP ByDesign

Vendor portal with Admin/Supplier access. Added auto-supplier onboarding and a GenAI assistant to explain PO status and structured data.

Agent Nob (SAP S/4HANA)

GenAI-powered assistant for S/4HANA Org Structure design and month-end closing automation using RPA, reducing hours of work to minutes.
